12 MONTH WARRANTY

BATHROOM AIDS

Patented stand assist armrests which raise the seat when the user pushes down on them

Soft, padded foldable backrest

Soft, padded seat with front opening

Pail with lid

Lightweight aluminium tubing

Height adjustable legs

Slip resistant suction rubber tips

When a user wishes to stand, their natural reaction is to push down on the armrests. By pushing the armrest in a downward direction, the seat will raise simultaneously, effectively placing the user in a standing position, reducing the strain on their hips and knees.

Perfect for people recovering from hip or knee surgery and those suffering from severe arthritis.
